

# Loop 101 (Pima Freeway) HOV Lanes

Tatum Boulevard to Princess Drive

Project Hotline (602) 235-2868

ADOT

## Westbound Loop 101 To Close This Weekend Between Hayden and Tatum

Motorists driving on Loop 101 (Pima Freeway) will be making quicker trips late next fall with the completion of HOV lanes to absorb carpool, bus and motorcycle traffic between Loop 202 (Red Mountain Freeway) and State Route 51.

In preparation for the construction of one segment of the HOV project, the Arizona Department of Transportation (ADOT) early Saturday will close the westbound lanes of Loop 101 between Hayden Drive and Tatum Boulevard to re-stripe the traffic lanes, improving the safety of crews and motorists by moving traffic away from the work zone.

This segment will complete HOV access from Loop 101 at Tatum Boulevard to the eastbound entrance to Loop 202 (Red Mountain Freeway). The project was pre-planned to better utilize median space by adding one HOV lane in each direction, a new permanent concrete median barrier, median lighting, and new rubberized asphalt to minimize traffic noise.

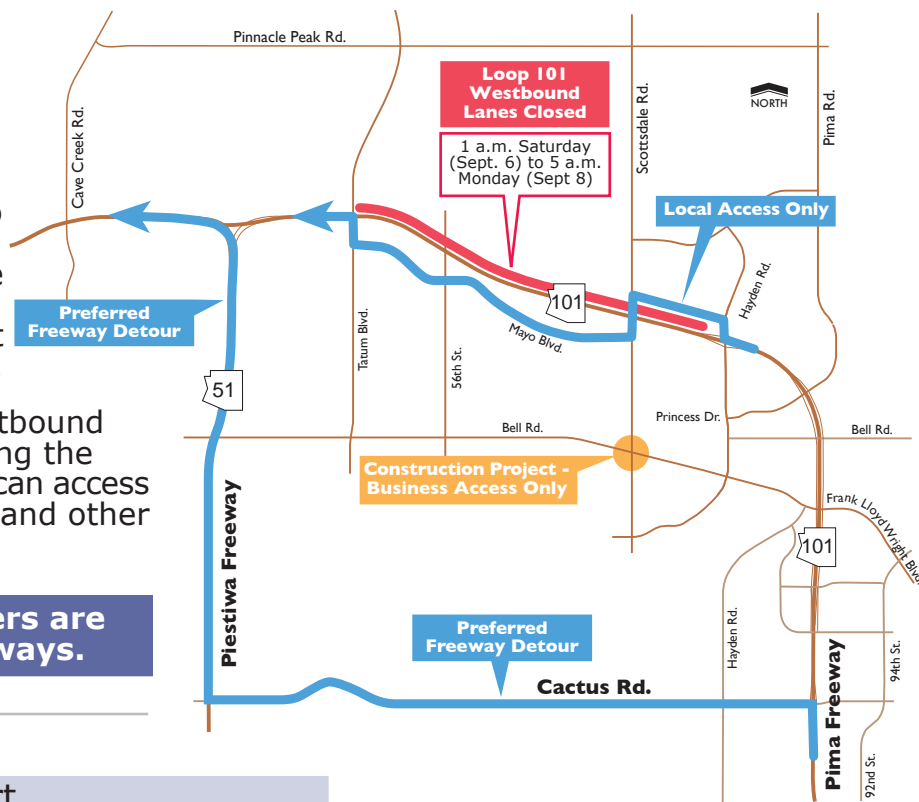

### Closure (Sept. 6 to 8)

Westbound Loop 101 closed from Hayden Road to Tatum Boulevard from 1 a.m. Saturday to 5 a.m. Monday.

Drivers are strongly encouraged to use Cactus Road to northbound SR 51 or another freeway alternative to avoid extreme congestion expected on eastbound Loop 101 at Hayden Road and other local streets.

For local and business access, westbound traffic will exit at Hayden Road along the access road to Scottsdale Road and can access local streets from Mayo Boulevard and other major streets.

**To reach the north valley, drivers are encouraged to use other freeways.**

### Project Schedule

**August 2008** Construction start

**Summer 2009** Anticipated construction completion

ADOT is working to complete this project as quickly as possible with minimal disruptions to the traffic during this time.
